LOOK OUT FOR THESE SYMBOLS

easy care

Made from a blend of fibres, these garments are designed to require minimum ironing and are treated to resist excessive creasing.

non-iron

Our famous non-iron shirts can be worn straight from the dryer – the perfect work shirt for people with no time, but plenty of style.

100% cotton

Many of our garments are 100% cotton, made from the best quality fibres to be soft yet hard-wearing.

machine washable

Designed to be easily laundered in a standard domestic washing machine or dry cleaned.

quick dry

Created to suit those with very busy lives, these garments dry in double quick time.

stretch

These garments include fibres which are designed to 'give' a little for extra comfort.

durable

Reinforced seams and heavy duty fabric, help these garments to withstand rigorous wear in a variety of high pressure environments.

personalise garment

All our garments can be embroidered with names and company logos, see page 30 for further details.

SUGDENS
CAREER & WORKWEAR SINCE 1869

William Sugden began with just a sewing machine in the back of his shop...

WE'VE COME A LONG WAY...

... since we set up our first tailor's shop in 1869.

From those small beginnings as a family run business, founded by William Sugden in Cleckheaton, West Yorkshire, we have evolved to become one of the country's foremost workwear and corporate clothing specialists.

From just one sewing machine in the back of the shop, William Sugden, his four sons and daughter grew the business enough to move to a factory at Water Lane Mills in Cleckheaton.

The 'Water Lane' brand name proved so successful that further factories were opened across Yorkshire in both Barnsley and Wakefield.

We soon acquired our own weaving mills and during the course of the first and second world wars, we produced close to six million shirts and work suits for the armed forces.

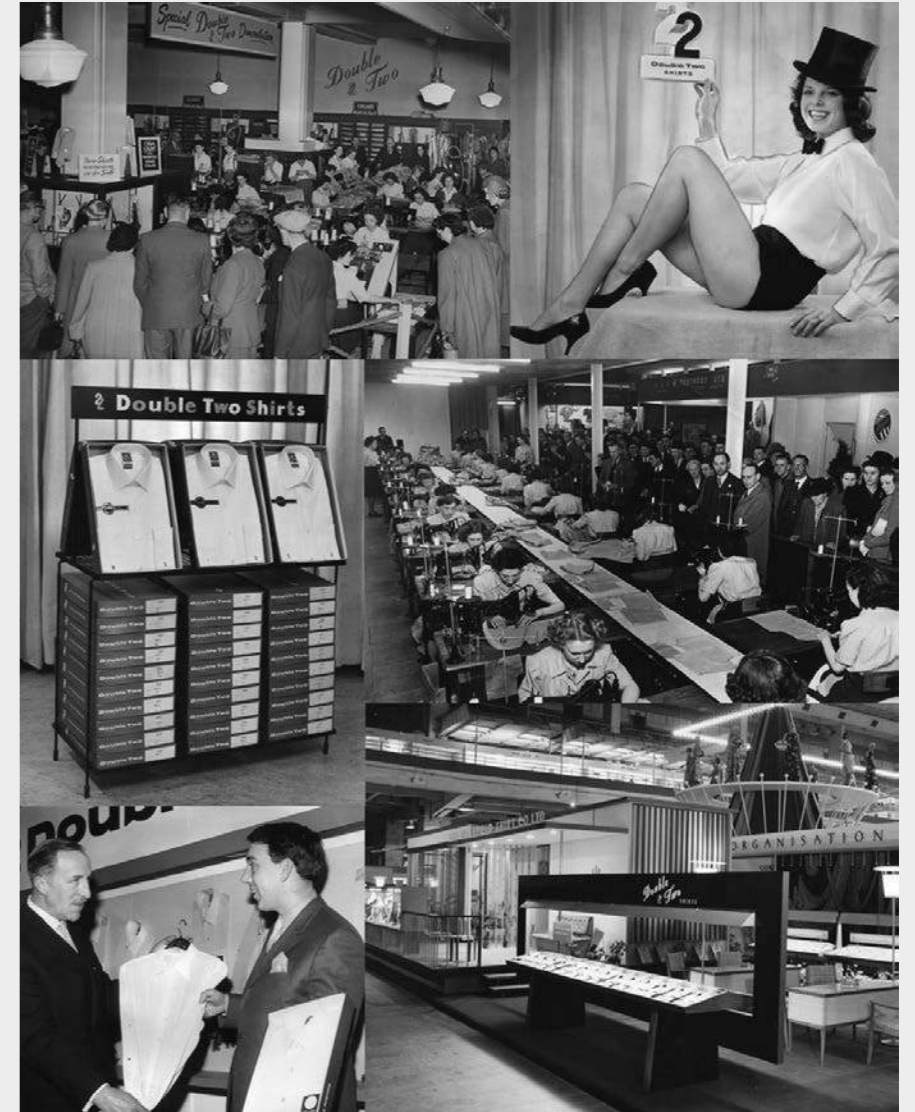

In 1968 we joined forces with famous shirt-makers; Double TWO

In 1968, we joined forces with the famous Double TWO shirt-makers, renowned for high quality shirt production with industry leading innovation. This relationship enabled both companies to share expertise and thrive in the modern marketplace.

With an enviable reputation as the leading supplier of work shirts and uniforms to UK Police Forces and Emergency Services, we are proud to clothe a large number of local and national companies across a variety of business sectors.

Over the years we've evolved from simply providing clothing. Embracing the latest technology and leading the way with innovation, we were the first company in the UK to use CAD systems to design our fabrics and were the first to offer a complete managed uniform service, offering a total clothing package developed to the clients' needs assisted by a full stock management system.

Listening to our customers' needs, we have developed a full service, from design to delivery. Whether it's clothing from our stock, an embroidery service or a fully bespoke uniform design, we can clothe each member of your team from head to toe.

Our in-house design team can provide a bespoke solution, working with you to develop a strong, unique clothing range, reflecting your company vision and promoting your corporate identity.

A bespoke, online ordering portal and your own fully managed stock, housed in our warehouse means your workforce can order their own uniform distributed direct from us, so you don't have to waste valuable space on storage.

Our streamlined approach removes much of the unwanted pressure when it comes to providing staff with workwear. That's why some of Britain's best known businesses rely on Sugdens to deliver excellent products and stress free distribution.

The expertise we've acquired in corporate clothing ensures you get the right clothing for the job, ensuring products meet safety

regulations and the specific demands required for your business sector.

Almost 150 years into our journey, we remain a family owned company, proud of our illustrious heritage and our reputation for high quality career, workwear and customer service.

After almost 150 years we remain a family owned company, proud of our standards and heritage...

Double TWO

TAILORING ESSENTIALS

We make no apologies that the male and female garments within this collection are made from differing fabrics. The female collection uses a superior double layer polyester fabric that provides wonderful drape and softness while a more substantial and robust poly viscose fabric makes up the menswear offer.

The Essentials collection offers exceptional value without compromising quality with 1000's of many satisfied wearers.

MOISTURE MANAGEMENT

Your job is tough enough – so make sure your clothes are working as hard as you.

Our high performance wicking shirts draw moisture away from the skin to keep the wearer dry and comfortable. They provide the ultimate balance of performance features, along with low maintenance durability for the most diverse and demanding daily wear use.

They are extremely resilient to washing, so there's no need to worry about colours fading or the fabric pilling, even with frequent laundering.

0936

Wicking Polo with fixed Epaulettes

TROUSER COLLECTION

FORMAL TROUSERS

Male and female fit formal trousers, in a hard wearing polywool blend, featuring a shirt grip waistband, pressed in front and back crease for a smart appearance, side, hip and coin pockets. Particularly suitable for office wear or security type roles where a smart appearance is paramount along with durability and comfort.

CARGO TROUSERS

A modern heavy duty cargo trouser combining functionality and versatility - a true all-rounder for any physically demanding role.

CARGO TROUSERS

A very popular, durable, easy care and hard wearing combat trouser with expandable cargo pockets. Sewn-in front creases give a smarter look while the fabric, features and details deliver a multi-functional cargo trouser which made for ultimate performance and exceptional build quality.

STATION WEAR FIRE TROUSERS

A selection of hard wearing yet comfortable trousers designed to meet the demanding standards required in a high pressure environment. Made in 2 weights to suit diverse needs and in both male and female fit, the trousers feature a smart-look sewn in front crease and inner shirt grip waistband and are made to the highest standards featuring reinforced seams and sewn throughout with heavy duty thread.

Tried and tested by fire fighters across the United Kingdom

TAILORED FOR OUR CLIENTS

We don't just manufacture high quality clothing, our experienced Sales Team will guide you through our full collection so you can confidently make the right choice.

All of Sugden's Career and Workwear can be personalised using embroidery and/or printing, to create individual garments you, and your staff can be proud of.

If you require something unique, our Design Specialists are experts in developing bespoke workwear solutions.

VALUE ADDED SERVICE

BESPOKE UNIFORM DESIGN

To suit your business and maximise your brand identity.

A FULLY MANAGED SERVICE

From concept and design to sourcing, quality control, storage and distribution.

EMBROIDERY & PRINTING

Perfectly personalised uniforms, from company logo to the wearer's name.

SECURE WEB PORTAL LOG IN

You can place, track and manage your orders from anywhere in the world.

INDIVIDUAL PACKAGING AND DISTRIBUTION

Each personalised uniform will be sent to the right team member, on time.

EXPERT FIELD SALES SUPPORT

Our sales team will keep you up-to-date with the latest regulations, so you can make the right decision.

EMBROIDERY & BADGING

Make your workwear stand out from the crowd and showcase your corporate identity with our professional embroidery service.

We can create an intricately detailed, embroidered version of your company logo or have your design printed on to any garment using special Polymark transfers.

We can even add the name of the wearer for that extra personal touch, creating a bespoke branded uniform of which your workforce can be proud.

Badging is a low cost and distinctive way to personalise your workwear

BESPOKE DESIGN CASE STUDY

We were approached by leading a UK independent airline to design a full range of corporate uniform. From Pilot and Cabin Crew right down to those working on the ground, no crew member was left unaccounted for in this full scale bespoke corporate uniform design.

Planned to coincide with the airlines' 50th anniversary, the new uniform was commissioned to celebrate the brand's heritage whilst looking forward to the future with a dynamic, fashionable look that the whole crew could be proud of.

We had a chat with the crew at the airline, gaining valuable insight and the essential input of those that

would be wearing the uniform on a daily basis. The key feeling among the crew was that they required a smart, modern and stylish design that conjured up the elegance of air travel in the early days whilst still being practical enough to carry out their daily jobs.

Taking our inspiration from the rich company history and glamorous heritage of air travel, every piece was considered with the crew in mind. With every cut, stitch and seam of every garment designed with precise attention to detail.

The resulting designs channel the glamorous vintage years of air travel, celebrating this leading airlines rich heritage, with a sophisticated, fashionable and easily recognisable uniform that fits with the company's brand identity.

From Pilot & Cabin Crew right down to those working on the ground...

Casual WORKWEAR

Easy care and easy wear. A relaxed and comfortable approach to staff uniform creates a friendly, approachable image and allows for imaginative branding and decoration opportunities to communicate your brand.
